## Film Screening: The Raising of America

Tuesday, January 15 -- 6:30 pm - 8:45 pm

Over the course of the next 5 months we will be watching the documentary series The Raising of America and having a discussion after. The first episode, interweaves discoveries from neuroscience with the stories of families and communities doing all they can to provide the nurturing environments all babies and young children need to thrive—while too often hindered by social conditions. Improving conditions for families with young children is perhaps the most prudent investment any nation can make.

## What do you Mean Infants and Toddlers can't do Science Activities?

Saturday, January 26<sup>th</sup> – 10:00 am – 1:30 pm

Hands-on interactive training. Participants will engage in different scientific experiences that will promote their understanding that science is an essential component of learning and development of infants and toddlers.
